On the last day of Dia de Muertos, Ascended Master, Savhi, and Judie Palmer will be presenting the avenue one takes in transitioning from the physical life to the afterlife and beyond.

Subject matter will include the circumstances in which a soul/spirit might have difficulty pursuing the natural process of eliminating the human elements after death. How past life traumatic syndrome can cause a soul to remain earthy or how an unimpaired soul can help them are some of the examples unveiled through stories from the Potters of the Field.
